MODULAR

356 FORGOTTEN DEGREES

There are 360 degrees in the world, not only the 0, 45, 90 and 180 that represent the vast majority of the man-made world. We love nature with all its twists and turns, under every angle and we work very hard liberating them from the confines of the unimaginative prison that is yesterday's technology.

Modular by Bole is a floor system that, based on the most common shapes from nature, brings you an exciting, convenient, easy-to-plan and install new pattern floor solution like no other. Our technologies let us rescue all the forgotten shapes and curves to use more of the wood and produce more floors per forest.

by BOLE

NATURE'S FIT PAT. PEND.

Thanks to our patent pending Nature's Fit technology, we have preserved the 8 forms most true to the way they grew in nature. For every Curv8 floor, raw boards are selected to fit one of these eight forms. Curv8 modular technology retains the tree's original shape and grain lines, allowing material to be utilized in an eco-friendly manner and making pattern repetition unnoticeable. Modules are packaged in individual cartons for easier installation.

MATERIALS AND TECHNICAL CHARACTERISTICS

Curv8 board is 12 mm (1/2") thick with a 3 mm (1/8") noble timber wear layer and has bevels on all four sides. The boards are connected using the tongue and groove method. One module contains 8 boards totaling 2.8 m² (30 sqft).

ENGINEERED CURV8 E12

BEVELS

Curv8 is manufactured with 0.8 mm (0.03") bevels on both the long and short edges for natural looks.

For your better assistance we have developed a tool to calculate the exact amount of Curv8 modules you will need for your project. Please contact our sales team for inquiries and further information.

CURV8 IS AVAILABLE IN

Oak
 Natural, Rustic

QUALITY GRADING

Select

No sapwood or dark knots. Healthy knots and "cat paw" present.

Natural

Sapwood and small dark knots present, as well as healthy knots and "cat paw".
