

Limited Structural Integrity Warranty

Real Wood Floors (RWF) warrants its products, in their original manufactured condition, to be free from defects in lamination, assembly, milling and dimension. RWF products will remain free from these structural defects for life provided they are installed in accordance with our installation guidelines and are maintained in a controlled environment as outlined in our installation guidelines. This warranty is extended to the original purchaser of the goods and is not transferable.

Limited Finish Warranty

RWF hereby warrants to the Buyer that the factory applied finish of RWF brand product will not wear through or lose adhesion to the bare wood as a result of normal use for the duration of the warranty period, as stated for the product at the time of purchase (25 year, 50 year, etc.). Diminished gloss, scratches, and dents is not considered wear through of the finish. In the event the finish wears through or releases from the RWF brand product, Real Wood Floors will, at its option, repair or replace the affected planks or area. The warranty applies to defects in excess of 10% of the total square foot purchased.

Natural Oil Finished Products

**Vintage Loft (Hardwax Oil Finish)** - Lifetime residential and commercial when refreshed and maintained with approved products and procedures.

Flooring products finished with natural oils require different maintenance products and procedures than flooring finished with urethane or UV cured oils.

It should be noted that natural oil finishes are more susceptible to stains in kitchen areas where oily foods or water may come in contact with the floor. Such stains will be more visible in the lighter color planks, but will tend to fade with time and proper maintenance. These markings are to be expected and are not covered by warranty.

Commercial Application Warranty

RWF products installed in light commercial applications, will be afforded a 3 or 5 year warranty as stated in the "Finish Warranties" section of this document at the time of sale, on both structural integrity and finish provided the floor is cared for in a proper way and is not subject to water leaks, floods or maintenance procedures that utilize wet or damp mopping procedures. Water leaks, floods and improper maintenance will void all commercial warranties. Commercial applications must also be regulated to ensure acceptable jobsite conditions of 35-55% RH and 68-72 degrees from date of installation onward. At its discretion, RWF will require a Fidbox® data logging system to be placed on certain projects and our warranty reparations will be dependent on the return of the data from the Fidbox® logging system.

Light commercial is defined as any installation not in a dwelling where the flooring will be subject to similar daily foot traffic as in a home. Light commercial installations will not be subject to heavy commercial objects (like retail racks) or machinery (like auto-scrubbers) placed on or dragged across the floor. Examples of light commercial applications are doctor's offices, business conference rooms, etc. Heavy traffic locations such as restaurants are not considered light commercial applications and would not be covered by this warranty. The same exclusions pertaining to the residential warranty apply to the light commercial warranty.

Radiant Heat Applications

This warranty does not cover radiant heat applications. For information about our warranty as it relates to radiant heat applications please refer to our separate warranty document for radiant heat applications available on our web site.
